

Name _____

The Zebra and the Ostrich

Animals can help each other. They can work together as partners to get what they need.

Zebras live in Africa. A zebra looks like a horse with black and white stripes. A zebra can hear very well. It can hear predators coming from long away.

The ostrich is a large bird that also lives on the plains of Africa. Ostriches have very good eyesight. An ostrich can see danger far in the distance.

Ostriches and zebras often graze together in groups. The zebras warn the ostriches when they hear danger, and the ostriches warn the zebras when they see danger. They help keep each other safe!
