

Study the bar graph and answer the questions that follow.

G2

Name the source for the graph:	
What is the graph's title:	
What year did Earth's population reach 6 billion?	
What year did Earth's population reach 2 billion?	
What was the Earth's population in 1800?	
What was the Earth's population in 1960?	
If the graph is correct, what year will we reach 8 billion?	
If the graph is correct, what year will we reach 9 billion?	
What is the meaning of each bar on the graph?	
What is the graph predicting for the rate of future population growth over the next 30 years?	

World Population Growth, in Billions

Number of years to add each billion (year)

Sources: First and second billion: Population Reference Bureau. Third through ninth billion: United Nations, *World Population Prospects: The 2004 Revision* (medium scenario), 2005.
