CTE/ Club welcome event

By MIA HENDERSON

Gosnell High School Club members and club sponsors hosted a CTE/Club welcome event. This new event was to inform the incoming freshmen about the different clubs they can join their freshmen year that can benefit their future and help them make their high school experience more memorable.

Various members from each GHS club gave an overview of the club and some even showed pictures and told about membership dues that applied.

After the club portion of the event, the Career and Technical Education (CTE) teachers each talked to the students about their classes and the types of lessons and activities that take place in them to encourage them to enroll in CTE classes and pursue a program of study and become a completer.

8th grader Cannon Leigh Curtis said, "The meeting was very informational. I learned a lot about the different clubs. Out of all the clubs I learned about I'm thinking about taking year-book because I love photography. The meeting also made me not as nervous to begin high school."

Senior Kaylee McKenney explains pictures from her agriculture class activities and projects after sharing about her experience in the Gosnell FFA.

Freshman Markese Mullins and Senior Claudia Ramirez speak to the incoming freshmen about the benefits of being in the high school choir.

SENIOR SPOTLIGHT: NATALIE KING

By PEYTON SULLINS

Natalie King was born on September 14, 1999 to John and Kasie King and is the sibling of John and Hunter King. She is a member of the Gosnell High School marching band and participates in Key Club.

Natalie's most difficult challenge during high school has been learning to not care about other's opinions. Two things on Natalie's bucket list include seeing the Northern Lights and riding an elephant.

Natalie's favorite thing about being a senior is knowing that she is almost finished. She will miss not seeing her friends every day after she graduates. She plans to attend Arkansas State University or University of Central Arkansas to major in psychology.

McKenzie Kelley and Hannah Hardesty have been Natalie's best friends throughout high school. "They have both been there for me since junior high."

McKenzie commented, "Natalie has been my best friend for a really long time. We have been through a lot together. She has honestly been such a blessing in my life and I know she is going to do amazing things. Even though we won't be attending the same college, I know our friendship will continue for years to come."

Hannah commented, "Natalie has been and always will be one of my best friends."

Mrs. Carnal-Jones has been her favorite teacher. "She is the funniest teacher I have had; she always says what she thinks."

Mrs. Carnal-Jones commented, "I have enjoyed teaching Natalie in Geometry and Algebra III. She always has a positive attitude towards anything she tackles. Natalie will be a success in whatever she sets her mind to being. Best of luck, Natalie!"

Family and consumer science class has been Natalie's favorite class during high school. "The class was fun and had a lot of hands-on activities, which helped me learn better."

A quotation Natalie lives by is: "Never let the fear of striking out keep you from playing the game." She added, "It reminds me to not be afraid of the outcome during situations."

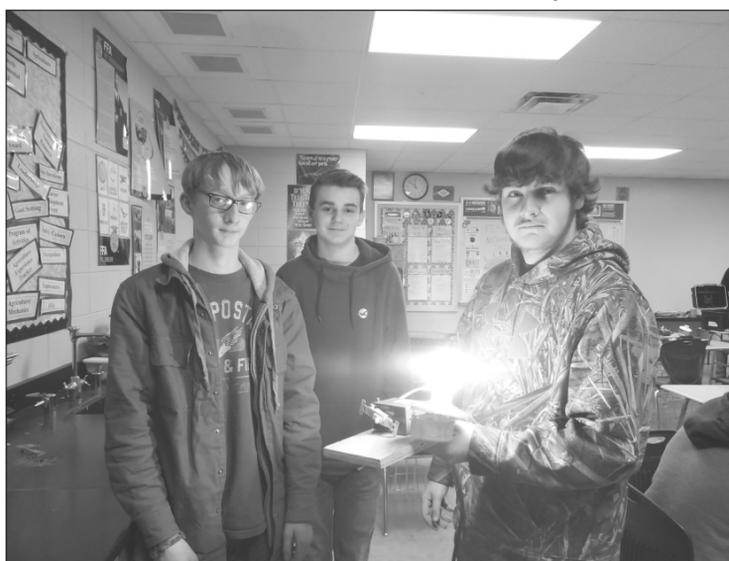

Moore class does electricity lab

By MIA HENDERSON

Mrs. Moore's Ag mechanics class learns about basic mechanics and wiring. After they learned the unit, they did an electricity lab. They started with a single pole and progressed to a 3 way switch GCFI outlet with 2 other outlets. The purpose was to see how to make a circuit and to see how electricity works. Some tools that they used were pliers, screwdrivers, and wire strippers.

Learning this unit helps the students out in their future. It could even save them money in the long run. For example, if the students needed to install a new light fixture they'd know how to do it themselves instead of paying money for someone else to do it.

"This was a really fun lab. My favorite part about the lab was finally

National Honor Society 2017

By ADDIE HATLEY

Gosnell High School held its annual National Honor Society induction ceremony to recognize outstanding high school students

and to honor those students who have demonstrated excellence in the areas of scholarship, leadership, service, and character.

Seniors Peyton Sullins, McKenzie Kelley, Abby Ryan, and Macie Cain

each gave a speech about scholarship, leadership, service, and character during the event. Friends and family of the inductees were able to attend the ceremony and enjoy the reception afterwards.
